- A great way to ensure the articles provided by AI are real is to actually find, download, and read the full article. Don't just provide a citation or abstract to complete your assignment.

Ways to Verify Authentic Articles

1. Use library databases to search for the cited articles by title to see if they exist. Verify title, authors, volume and issue.
2. Go to the indicated journal's website and search its tables of contents to verify the presence of the article in the cited volume and issue.
3. Ask your librarian for help.
